Education

DOĞUŞ ÜNİVERSİTESİ
Management Information Systems
2022 - Present

SoftITo Yazılım Bilişim Akademisi
Backend Developer Program
May 2024 - August 2024

Experience

Ödeal Ödeme Kuruluşu A.Ş.

Software Development Intern

September 2024 – November 2024

During my 2-month internship in the POS devices field, I gained experience with technologies such as .NET, Node.js, and Jira. I closely examined the functionality of POS devices and gained knowledge in software development and integration. I managed task tracking using Jira for project management and experienced the importance of team coordination in software projects.

SoftITo Yazılım Bilişim Akademisi

Backend Developer Trainee

May 2024 – August 2024

In the bootcamp, I received training on .NET, C#, Web API, JWT, Entity, and Identity Framework. I developed competencies in modern application development, secure API creation, and database management.

Projects:

Inventory Management System Project

Technologies: C#, .NET, Web API, Entity & Identity Framework, JWT

[GitHub: InventoryManagement](#)
